My personal testimonial on Aloe Vera and Rheumatoid Arthritis.

In January 1983 aged just 23 years old I was diagnosed as suffering with Rheumatoid Arthritis and Psoriasis. By the July I was very ill, as the Arthritis had attacked my entire body. By this time I was almost crippled, in very severe pain and in and out of hospital. For the next four years I was very unwell, but in 1987 it subsided, I went into remission and I stayed in quite good health apart from the odd joint being painful.

In November of 1992 it hit me again but this time with a real vengeance and I was admitted to hospital immediately after a visit to my GP. My ankles were like balloons, my left shoulder was frozen because of extreme pain and it even attacked my jawbone, so much so that it became almost impossible to eat and chew my food, but the most painful of all the joints were my hands and feet, and today both my hands and feet are very disfigured.

In October of 1996 I was invited to a presentation evenings to hear about the benefits of Forever Living Products Aloe Vera. I took home a bottle of the drinking gel, a heat lotion, some Omega 3 and a toothgel and started to use them. I must say that I was very skeptical but decided to give it a go and I am truly amazed at what has happened.

Within a few months most of the Psoriasis in my scalp, legs and arms had almost gone, and it is now eleven months since I started to take The Aloe. My arthritis is very much under control, in fact I feel really great. I still get a bit of pain and discomfort but nothing like it used to be. It has also allowed my rheumatologist to back down quite a bit of the medication I have been taking to try and stop the disease.

Along with drinking the Aloe Vera drinking gel I joined FLP and decided that I wanted to build an income, and within eleven weeks I made the position of manager in the FLP marketing plan. I now have a steady income that has just crept over the twelve hundred pounds a month mark and I am sure my future is now in very safe hands with this company. I would recommend anyone to try these remarkable products for themselves as they could get the same results as I have had.

Lastly I have to thank my wife Marie because if she had not insisted that I go along and listen to Cliff Targett that night, I would probably still be suffering today. My sincere thanks must go also to Cliff my upline Senior Manager, and my brother and sister in laws and sponsors Ron & Margaret for showing me this amazing opportunity.

Brian

**Update.** It is now mid 2010, I am still using all the products from Forever Living. I feel fantastic and feel I am in the best physical shape that I could be, considering I have had this dreadful disease for 27 years. I urge anyone to try these amazing products, they have completely changed my life. Thank you so much Forever Living.
