Forever Living Products (UK) Ltd.

18 June 1996

Dear Cliff

This is to share with you my experience of the benefits I have enjoyed using the Aloe Vera heat lotion.

About 30 years ago I was in a very serious motor accident during which I sustained serious injuries to my leg and particularly my left ankle which left me with severe arthritis.

I have suffered severe and constant pain from that injury for many years and this considerably impacted the enjoyment I obtained from many normal pursuits such as playing golf and even simply walking relatively short distances.

I obtained some of the Aloe Heat lotion from yourself and although somewhat sceptical, I applied the lotion to my ankle.

Within *minutes* the pain in my ankle eased and for the first time in many years I promise you I was completely pain free.

I use the lotion daily and since that first application have enjoyed an almost entirely pain free existence.

Not only have I gained this immense benefit myself, I also gave some of the lotion to a colleague who suffered from a similar condition in his arm. He gained exactly the same benefit as myself, within minutes of applying the lotion, the pain and restricted movement of the limb improved dramatically.

Since then, I have told this story to a number of friends and acquaintances and was able to introduce a number of them to the benefits of using the Aloe Vera heat lotion.

I shall continue to use the lotion and intend to use the other Forever Living products from now on.

I shall forever be indebted to you Cliff for introducing the products to me, the quality of my life has improved beyond my imagination and I have no hesitation in endorsing the Aloe Vera heat lotion.

You are welcome to show this letter to anyone in a similar position to myself and I hope my experience will be repeated time and again for those unfortunate enough to suffer similar pain as I had.

Yours sincerely

Derek Lennon
