

Fantastic Freedom!

Due to the huge success of our revolutionary Forever Freedom, we thought we'd share with you a few of the testimonials we have received at Head Office!

The results speak for themselves...

experience
freedom
today and
forever

Key Ingredients have been shown to:

- Relieve pain
- Reduce inflammation
- Restore mobility

Jane Rubin - "I severely damaged my left knee cartilage about four months ago (a recurring problem since my teens) and although I had been drinking plenty of Gel and applying the Gelly several times per day, I was still limping and couldn't straighten my leg to take a stride. So when, after three months of misery, I had the opportunity to try a couple of litres of Forever Freedom, I jumped at the chance.

After those first two litres taken over two weeks (roughly 70ml twice a day) I noticed a significant improvement in walking. I could tentatively straighten my leg after five days - and the reduction in pain made it easier to sleep, but still felt fragile. I imported a case of Forever Freedom from the States and have continued taking the same dose; now I can walk without a limp for about 50 yards or so. I plan to build up the exercise very carefully to strengthen the supporting muscles for the knee. I am confident from my reading that the mixture of anti-inflammatory and cartilage-restoring-compounds, mixed with Aloe - will, in time, start repairing and rebuilding the knee cartilage.

I have managed to get to 62 without having a cartilage operation - I don't want to give in now!! If drinking Aloe with all those other good things in it will do the trick, I will be absolutely thrilled. Watch this space!"

After just two weeks my knee was virtually pain-free!

Hazel and Peter Kemble - Peter told us "When she was 15, Hazel broke her elbow trying out a new gymnastics routine, and over the last few years it has increasingly been giving her trouble. Recently she has had to take a break blow drying her hair, and holding a book to read has become uncomfortable. This is something of a liability when we are rock climbing, so we were very excited

Forever Freedom really works!

had collected when she rolled her car as a teenager had gone away. No, she wasn't really a hooligan, she was just broke and the track rod end came apart on the old "banger" she was driving!

Peter ran regularly for 45 years! First as a track athlete and then because he couldn't kick the habit! He has had three arthroscopies, which have left a lot of scar tissue and the knees are not good news coming down hills. Soon after we got back from America Peter realised that he was going down the hills here in the Lake District without any pain at all and began to talk about taking on the fell runners again. The thing we find most exciting is that for over three years we had been taking capsules of powdered glucosamine and chondroitin without any apparent difference, so obviously the effect of Forever Freedom is much more potent. It really works!"

Ben Gylsen - "I started drinking Forever Freedom while Lisa and I were in Vancouver in August. I suppose it was really out of curiosity to see if it would have any effect on me, and also to see what it tasted like! I used to ride motorbikes when I was younger, and used to be very good at falling off! A couple of times I landed badly, injuring my neck.

On top of that I had 4 years of Osteopathic college, with friends and colleagues trying to 'adjust' my neck every day; which was not the best thing in the world for a delicate neck. Basically, for the last few years, I have had a constantly stiff and aching neck. Worse in the morning, with occasional headaches. So I was intrigued to see if the Forever Freedom would have any effect at all.

After about four days drinking 4oz per day, I woke up with no stiffness at all (which is unusual for me!) My immediate thought was that it couldn't be the Freedom acting so quickly. In fact I felt better generally - my knees felt more flexible, and were not 'croaking' as much; my lower back felt easier.

After about two weeks, I still felt good. But like anything, I had got used to this state of feeling better; so now it just felt normal. So, I thought "Oh, it's stopped working." and promptly sent the rest of my supply of Freedom to Jane Rublin, one of our team, who I felt would need it more than me. And you can guess what happened. After about 4 days, all my old symptoms started to come back... just at the time that Jane was getting the benefits of the drink...and too late for me to ask for it back! So now I can't wait to get our first batch, so I can start taking it again."

I had more movement in my neck, and less residual pain

Brenda Short - "Steve Burton brought me back the Forever Freedom after the Super Rally in Vancouver. He knew that I have suffered from lupus for many years and that I have benefited greatly since taking the Aloe Gel but still have problems with severe flare-ups particularly with joint pains.

I am very excited about the Forever Freedom, although at first I wasn't too keen on the taste - it was so different from the other drinks - but within a couple of days I really began to enjoy it, particularly as I could feel a definite improvement in my health. I had more energy and my lupus was generally less active and I felt great! That was in August and I am now desperate to resume taking the Forever Freedom again as I know how much it can help me and so many other people with arthritis and similar conditions like mine."

My aches and pains seemed to vanish!

Forever Freedom a breakthrough formula which combines the most complete team of nutrients on the market today, essential for the maintenance of healthy joint function and mobility - **Glucosamine Sulphate, Chondroitin Sulphate, MSM and Vitamin C** - with the rich nutrients of our stabilised **Aloe Vera Gel** for a product like no other!
