

TESTIMONIALS

BRIDGET RYAN

I had a serious bowel operation 15 years ago which necessitated me having to have 7 feet of my bowel intestines removed. This left me with a constant dose of diarrhoea, which was embarrassing and most uncomfortable, especially while visiting, travelling or on social occasions. I actually dreaded travelling and was virtually a prisoner in my own home. I have been to several doctors, attended numerous clinics and I am virtually a medical guinea pig, but all to no avail. I had to go on a strict diet which strictly

limited my intake of varieties in food. No beef and root vegetables were allowed. Since I started taking Aloe-Vera Gel approximately three times daily my bowel complaint has improved immensely within a day of taking the gel.

In the last week I have eaten beef, lettuce and cabbage, food I thought I'd never eat again; and my bowel has in that short time become regular. I would strongly recommend also the heat lotion which cured my aching neck which was very stiff. I got instant relief on just one application of the rub. I would strongly recommend it to my friends.

GERARD ROACHE

I was diagnosed as having Crohn's Disease in 1984. To anyone who may not know, Crohn's Disease is a severe disorder of the stomach and bowel. For me it was the cause of bouts of severe diarrhoea and stomach cramping that, rendered me disabled, in the sense, I was unable to work or function properly on a daily basis. My social and working life had to be planned or re-organised daily depending on my condition that day.

Serious attempts at diet change over eight years failed to help in any way. These changes varied from including or excluding, "root vegetables", "greens", "roughage", "starch", "alcohol", and "common beverages", etc. Time passed with two operations and several changes of medication all, while they worked for a short period, in the long run brought their own problems, thus worsening my condition.

Left in a "medical limbo", I turned to Forever Living Products Aloe Berry Nectar in a cry for help. I can now cheer, laugh and sing out loud, I can work effortlessly, I no longer have to plan around my condition. In a word, I have returned to "Pre 1984", when my bowels and stomach were normal. As I write, my diet is being opened out to include things that I would never have thought possible before. It has taken me three months of taking 2fl oz, 3 times daily to achieve this wonderful feeling, although I did get positive results after just three weeks.

I must admit I tried the Forever Living Products, Aloe Berry Nectar as a sceptic who said, with a 60-day Money Back Guarantee, I have nothing to lose. I would now without hesitation, recommend it to anyone who would like to try a natural answer to their health problems. Wishing you whoever you may be all the best.
