Colette Ryan  
Forever Living Products (UK) Ltd

2nd April 1997

Dear Colette,

In February 97, you introduced me to the Aloe Vera Gel for my asthma, at the time i was on 2 inhalers 4 times a day and steroid tablets which was relieving my symptoms but at the same time, i knew i must be also damaging my body from all the chemicals,

I have now been on the Gel for 6 weeks and after 2 weeks came off my inhalers. My wheezing has now disappeared altogether.

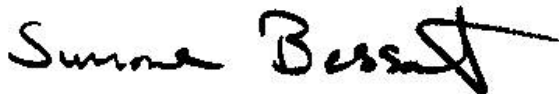

Only 3 days ago my Gel ran out and i had to resort to using my inhalers once again.

Thankyou Colette for ordering me another bottle of Gel, of which i will never run out again. Thankyou Forever Living Products for giving me a healthier life.

I would just like to add i have also been taking the Lycium for the same length of time and no longer suffer from pmr mood swings, which the children and my partner are very pleased about. We now live in harmony most of the time.

I have now become a Distributor for Forever Living Products, and will be able to help people, like i have been helped.

Yours sincerely

Simone Bessant
